I attest that the above information is correct, that I will adhere to all state and federal pesticide laws, that I will follow all appropriate pesticide label instructions and requirements, and that I am accountable for all pesticide application and handling actions that I perform or supervise.

Signature of Applicant for Pesticide License

Confirmed by
UDAF Employee: _____

Application must be accompanied by payment of cash or check (write check to UDAF).
If a credit card is used the applicator will not receive a receipt and must retain the "Instruction Sheet for Credit Card Payment" as proof of payment.

The criteria for commercial, noncommercial, and private pesticide applicators is as follows:

Commercial Applicator - any person who uses any pesticide for hire or compensation.

Noncommercial Applicator - any person working as an individual or an employee of a firm, entity or government agency who uses or demonstrates the use of any restricted use pesticide and who does not qualify as a private applicator, nor require a commercial applicator's license.

Private Applicator - any person or his/her employer who uses or supervises the use of any restricted use pesticide for the purpose of producing any agricultural commodity on property owned or rented by an individual or that individual's employer or (if applied without compensation other than trading of services between producers of agricultural commodities) on the property of another person. Additional tests are required for Fumigation and Aerial licenses.

The license categories for commercial and non commercial applicators are as follows:

(1) Agricultural Pest Control.

- (a) **Plant.** This category includes applicators using pesticides to control pests in the production of agricultural crops including, but not limited to, field crops, vegetables, fruits, pasture, rangelands, and non-crop agricultural lands.
- (b) **Animal.** This category includes applicators using pesticides on animals including, but not limited to, beef and dairy cattle, swine, sheep, horses, goats, poultry, and to places on or in which animals inhabit. Doctors of veterinary medicine or their employees engaged in the business of applying pesticides for hire, publicly representing themselves as pesticide applicators or engaged in large-scale use of pesticides, are included in this category.

(2) Forest Pest Control. This category includes applicators using pesticides in forests, forest nurseries, and forest seed-producing areas.

(3) Ornamental and Turf Pest Control. This category includes applicators using pesticides to control pests in the maintenance and production of ornamental trees, shrubs, flowers and turf. This includes controlling pests on home foundations, sidewalks, driveways, and other similar locations.

(4) Seed Treatment. This category includes applicators using pesticides on seeds.

(5) Aquatic Pest Control.

- (a) **Surface Water:** This category includes applicators applying pesticides to standing or running water, excluding applicators engaged in public health related activities included in R68-7-6(8).
- (b) **Sewer Root Control:** This category includes applicators using pesticides to control roots in sewers or in related systems.

(6) Right-of-Way Pest Control. This category includes applicators using pesticides in the maintenance of public roads, electric power lines, pipelines, railway rights-of-way, or other similar areas.

(7) Structural and Health-related Pest Control. This category excludes any fumigation pesticide application and is limited to applicators using pesticides in, on, or around food handling establishments; human dwellings; institutions, such as schools and hospitals; industrial establishments, including warehouses, storage units and any other structures and adjacent areas, public or private; to control household pests, fabric pests, and stored-product pests and to protect stored, processed and manufactured products. This category includes vertebrate pest control in and around buildings.

(8) Public Health Pest Control. This category includes applicators applying the use of pesticides in public- health programs for the management and control of pests having medical and public-health importance.

(9) Regulatory Pest Control.

- (a) This category is limited to state and federal, employees or persons under their direct supervision, who apply pesticides in a mechanical ejection device, or other methods to control regulated pests.
- (b) This category is limited to state and federal, employees or persons under their direct supervision, who apply pesticides in a protective collar, or other methods to control regulated pests.

(10) Demonstration, Consultation and Research Pest Control. This category includes individuals who demonstrate or provide instruction to the public in the proper use, techniques, benefits and methods of applying restricted-use pesticides. This category includes, but is not limited to agricultural compliance specialists, extension personnel, commercial representatives, consultants and advisors, and persons conducting field research with restricted-use pesticides. In addition, they shall meet the specific standards that may be applicable to their particular activity.

(11) Aerial Application Pest Control. This category includes applicators applying pesticides by aircraft. Aerial applicators are required to be certified in the Aerial-Application Pest-Control Category and any other categories of intended application.

(12) Vertebrate Animal Pest Control. This category includes applicators applying pesticides in the control of vertebrate pests outdoors, such as rodents, birds, bats, predators or domestic animals.

(13) Fumigation/Stored-Commodities Pest Control. This category includes applicators using fumigants to control pests in soils, structures, railroad cars, stored grains, manufactured products, grain elevators, flour mills, and similar areas and items.

(14) Wood-Preservation Pest Control. This category includes applicators who apply wood-preservative pesticides to wood products, such as fence posts, electrical poles, railroad ties, or any other form of wood products.

(15) Wood-Destroying Organisms Pest Control. This category includes applicators using pesticides to control termites, carpenter ants, wood-boring or tunneling insects, bees, wasps, wood-decaying fungi and any other pests destroying wood products, grain elevators, flour mills, and similar areas and items.
